Re: Hazardous Waste Compliance Inspection
EPA Identification Number KSD007246846

Dear Mr. Perez

On November 3-4, 1998, you performed a RCRA hazardous waste inspection of this facility. In your letter of May 5, you stated that one issue from that inspection remained unresolved:

Permit Condition III.F regarding the containment systems for container management units (CMUs), specifically resurfacing of the Processing Area floor.

This letter provides you with confirmation that this issue has been resolved.

The Processing Area floor was resurfaced with an impermeable coating on June 30, 1999, correcting this alleged violation. All issues cited from the November 1998 inspection should now be corrected.

If you have any questions, please call me at 269-7474.

Sincerely,

Ronald K. Robertson, CHMM
Facility Environmental Manager
